

COMFORT COLORS®

2017 Catalog

Colors inspired by nature

At Comfort Colors®, we celebrate the simple moments in life. Whether it's a poolside party or a sunrise enjoyed solo, coffee mug in hand, we cherish the times when the stresses of everyday life are replaced with effortless joys. Our goal has always been to create pure cotton tees, tanks and sweats that are as comforting as those moments.

We've spent over 40 years perfecting our unique dyeing process that allows us to achieve vintage earthy hues that look better with time. We invite you to live life in Comfort Colors®.

On the cover: Style 3333L (in Raspberry) Lotus graphic was achieved with silver foil transfer.

On this page (L-R): Style 1717 (in Sandstone) Hipster graphic was achieved using standard and puff plastisol / Style 3014 (in Chalky Mint) Peace Sign graphic was achieved with lithographic heat transfer / Style 3333L (in Citrus) Music Is Life graphic was achieved with traditional screen printing.

Lived-in comfort,

Our collection of relaxed apparel offers easy silhouettes with unmatched softness in a rich spectrum of colors. Thanks to our special dyeing process, there's a shade for every occasion, including wear-with-all neutrals and saturated brights. Our latest women's ring-spun, garment-dyed cotton tees (a pocket* and a V-neck) come in up to 16 of these irresistible hues.

Our dyeing process is equivalent to the effect of 50 wash cycles to achieve a worn-in look and to make sure that our clothing doesn't shrink or lose its shape. This allows us to create pieces like our brand-new Adult 1/4-Zip Sweatshirt, a cozy pullover that's sure to be an instant favorite. Comfort Colors® is rooted in a tradition of craftsmanship, but we always look to innovate.

low-key style

Mid-year 2017 we will introduce 4 new silhouettes in 100% French Terry. Perfectly plush without extra bulk, the unisex Jogger Pants, Scuba Hoodie and Crewneck fit women and men with ease. Our new Ladies' Shorts have such a comfy fit and a super-soft texture, she'll never want to take them off.

In other news, we're thrilled to announce our just-arrived collection of cotton accessories. Lightweight totes, field bags and stylish caps are made for everywhere under the sun, from campus quads to backyard picnics and seaside resorts. After all, Comfort Colors® is a lifestyle, inspired by nature and the simple joys of day-to-day life.

Decorating techniques

SCREEN PRINTING

Screen printing (or silk screening) is a technique that uses stencils and ink to create designs on garments. It is the most economical method for producing large quantities that involve cotton or cotton-blend garments.

DISCHARGE PRINTING

Discharge printing is a form of screen printing that uses a water-based catalyzed ink for the creation of softer prints on predominantly cotton garments. Using discharge printing on larger areas will provide a softer finish and stay truer to the natural softness of our garments. When printing white on the garment there may be a light transfer of color which is natural.

FOIL PRINTING

Foil printing is a premium process that gives decorated items an attention-grabbing metallic shimmer. It's a highly effective way to add a bright accent to a garment for maximum shine and impact.

HEAT TRANSFER PRINTING

Heat transfer involves combining heat and pressure to transfer images to garments. This is a great option for detailed prints, customization, shorter runs and quick turnaround times.

EMBROIDERY

Embroidery is sewing a design, type or logo onto a garment with special thread. This technique gives garments a higher perceived value and works particularly well on heavier weight garments such as fleece.

LASER CUT APPLIQUÉ

A laser cut appliqué is created by using a laser to cut either fine detail or a rough raw edge into single or multiple layers of fabric which are then sewn onto the garment.

Ordering Information

When ordering, please have the following information available:

- Company Name/Customer Number
- Shipping Information
- Purchase Order Number

Care Instructions

Garment-dyed goods should ALWAYS BE WASHED SEPARATELY BEFORE WEARING.

Due to the nature of the dyeing process employed with Comfort Colors pigment dyed shades, loose pigments may remain on the surface of the garments even after the first wash. We therefore strongly recommend washing these garments only with like-colored garments, as some of the pigment dyes may stain light or white colored garments in the wash cycle.

Washing the garments in cold water will reduce the possibility of staining. Shade variations are inherent in the garment dyeing process.

Terms

Orders can be accepted only under the following terms and conditions:

Prices, Quantities, Styles, Colors

Comfort Colors* reserves the right to change pricing at any time. Comfort Colors reserves the right to change or discontinue styles, colors, sizes or fabrics. Style and color availability may vary from location to location. Inventory will fluctuate on seasonal items.

Order Placement and Shipping

All additions to any order already placed will be considered a “new order” and written as a new purchase order. Partial shipments may be made. All freight claims for missing or damaged merchandise shipped on a customer’s account number must be filed directly with carrier.
